

SPORT & EVENT | TIXX-CONNECT INTERFACE

SEAMLESS INTEGRATION OF TIXX-BACKOFFICE INTO YOUR ERP SYSTEM

DYNAMICS BC – APP

We get our customers ready for their competition!

DOiT

The broad range of requirements of sport and event customers demands high-performance IT solutions. The ERP solution **DOiT | Sport & Event** is based on Microsoft Dynamics 365 Business Central and completely supports the entire processes as well as the value creation chain of modern industries. It covers all requirements in the areas of integrated financial accounting, sales & marketing, sales processing as well as procurement / purchasing & distribution. Through the integration of highly specialized systems, such as ticketing, payment, webshop applications or document management system with workflows and the continuous development of interfaces tailored for the industry, DOiT | Sport & Event is an innovative and sustainable ERP solution specifically for your needs.

DOiT | Sport & Event applications offer the sport and event industry solutions and platforms for mastering the challenges of the market and to facilitate operative as well as strategic business operations with ease and agility.

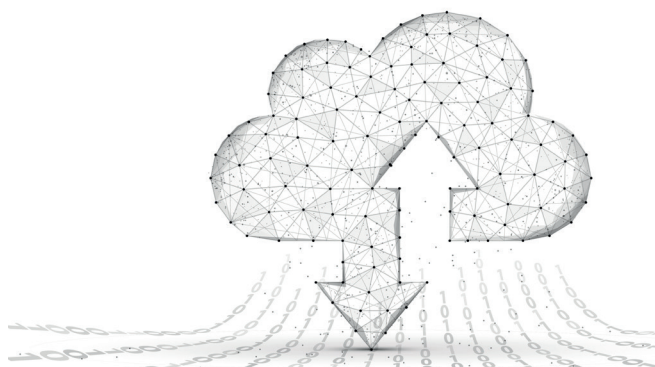

Connect ERP with EVENTIM TIXX

With the new application **Sport & Event | Tixx-Connect Interface** we easily connect the modules Tixx-Backoffice and Tixx-Connect from the EVENTIM Sports product suite to your ERP system. Benefit from the new interface, which offers you a high-performance, high-availability and secure data exchange.

The solution offers new functionalities to query data from EVENTIM's Tixx-Backoffice to Microsoft Dynamics 365 Business Central (BC). Master data such as customer data, bank accounts and other important information as well as transaction data (ticket purchases) will be imported from EVENTIM Tixx-Connect.

Overview of imported data

- Customer master data
- Customer addresses
- Customer communications
- Customer bank accounts
- SEPA mandates
- Invoices
- Credit notes
- Tickets

Tixx invoices can be converted to sales invoices and Tixx credit memos can be transferred to sales credit memos in Microsoft Dynamics 365 Business Central.

Before starting the accounting transaction of imported documents, the employees can run through plausibility checks to identify inconsistent data and ensure correct transactions on their financial accounting.

The app communicates via Tixx-Connect and thus makes all relevant data available for further processing in your ERP system.

Your Benefits

- Own interface role center (dashboard) with overview of all tasks
- Use of Azure resources for interface communication for
 - increase of security
 - unloading the ERP system
 - enable scalability
 - ensure high availability
- Activation and deactivation of Tixx Connect services directly from Dynamics 365 Business Central
- Standard interface to integrate EVENTIM Tixx to Microsoft Dynamics 365 Business Central
- Efficient and economical adaption of standard interfaces on customer needs
- Seamless workflow
- High availability of the system
- Performant data exchange
- Time scheduled data exchange

Requirements

The prerequisite for using the solution **Sport & Event | Tixx-Connect Interface** is the use of the modules Tixx-Backoffice and Tixx-Connect from the EVENTIM Sports Product Suite. EVENTIM is an important long-standing partner to whom we already provide interfaces. Therefore, we are now even more happy that we have been able to expand our partnership and connect another solution with Microsoft Dynamics 365 Business Central.

The new app **Sport & Event | Tixx-Connect Interface** will be available on AppSource. Additional Azure services are required to run the interface. Please contact our sales department if you need more information or if you would like to receive a quote.
